CT Benefits Firm Launches 401(k) Platform

Westbrook CT: Skip Young, Sr. Partner of Gowrie, Brett & Young, announced the launch of a new 401(k) benefits platform today. Pension Advisors Group, LLC provides administrative support and consulting services to sponsors of 401(k) plans and other forms of deferred compensation arrangements that are qualified under the Employee Retirement Income Security Act of 1974. Larry Bright, Jr. will serve as President of Pension Advisors Group, LLC, a division of Gowrie, Brett, and Young.

"There is a real need for this type of resource in the marketplace," stated Young. "Companies that don't look into their plans are often paying excessive fees that diminish the rate of return they and their employees make on their 401(k)."

Mr. Bright will manage Pension Advisors Group LLC. He is a graduate from Bryant University with concentration in finance and economics. He is a registered investment advisor and President of Bright Asset Management, an independent firm that specializes in investment management and financial planning for individuals and families. Mr. Bright has extensive experience in the retirement plan arena, as well as working with trustees and sponsors through the process of integrating administrators, custodians, and plan providers to create a customized retirement savings plan for each company. He resides in Old Saybrook, CT. with his wife, Karen and daughter Ashley.

Gowrie Brett and Young is a service organization specializing in the selection, implementation, servicing and administration of individual and group employee benefit plans. Gowrie, Brett & Young is a division of Gowrie, Barden & Brett and its affiliate companies, Fisher & Fisher Associates and Customer One Financial. The 'Gowrie Group' provides general and specialty insurance and financial services to clients throughout the United States. Insurance Journal recently cited Gowrie Barden & Brett as one of the top independent property and casualty insurance agencies in the US.
