A Message to our Burgee Program Clients and Partners

The coronavirus (COVID-19) outbreak is a dynamic, rapidly evolving situation that presents enormous challenges to both health and business risks on a global scale. Gowrie Group, and our parent company Risk Strategies, are continuously monitoring developments worldwide, nationally, and at the state and local levels. Our teams of risk advisors are working diligently in order to help you assess contingency plans, understand coverages, and keep your employees, members, and guests safe as the situation unfolds.

The health and safety of our clients and employees is priority one. Internally, we have implemented policies including travel restrictions, health monitoring, and workplace preventative measures to help prevent the spread of illness. We strongly encourage all Burgee Program clients to adhere to the Centers for Disease Control’s recommendations for Businesses & Employers, which include both Interim Business Guidance for COVID-19 and Cleaning & Disinfections Recommendations. The CDC’s COVID-19 FAQs are also a helpful resource.

Our partner, US Sailing, is also closely monitoring COVID-19 and the impacts on the sailing community at large, including the US Sailing Team. This information can be accessed on the US Sailing COVID-19 resource page.

Our Burgee Program team is available through our normal communication channels and is committed to delivering you exceptional service and helpful advice. We are available to answer your questions by email or phone. You can contact your Burgee Program account manager directly, or you can reach the Burgee Program team at 800.262.8911 or burgee@gowrie.com.

Thank you.
